

# Delaware Rate Phase-In Charges Begin with January 2008 Bill

As a part of the Delaware electric rate phase-in plan, your January bill reflects your obligation to begin paying back the amount deferred from the May 2006 rate increase.

Delmarva Power is billing the amount of the phase-in charges in 17 equal monthly payments. This is the **Monthly Recovery Charge** and is being added to your monthly bill beginning this month, January 2008.

The amount of your deferred balance will continue to be displayed in the **Electric Phase-In Summary** section of your bill listed as **Phase-In Credits to Date**. This section also contains a new line indicating your **Monthly Recovery Charge** and the number of months remaining for this charge.

Please see the sample bill for a detailed view of the charges.
