Important Rate Information for Commercial & Industrial Natural Gas Customers

Delmarva Power has asked the Public Service Commission for an increase in delivery rates to recover ongoing costs to improve reliability and safety and to support investments in new gas distribution technologies, facilities and equipment.

Effective August 31, 2010, Delmarva Power's delivery rates will change based on an interim increase approved by the Delaware Public Service Commission. If the full proposed rates are approved by the Commission, the range of impact to commercial and industrial customers will be an overall bill increase of between 5 percent and 13 percent.

Delmarva Power will notify customers of any changes. Please see the rate chart below for more details. Effects of these changes will vary with your usage.
