

IMPORTANT RATE INFORMATION FOR RESIDENTIAL ELECTRIC CUSTOMERS

Delmarva Power has asked the Delaware Public Service Commission (Commission) for several changes in electric delivery rates. The proposed changes are based on a thorough evaluation of work done over the last two years to deliver enhanced reliability, stronger resiliency, and needed infrastructure and technology upgrades that improve service for customers.

How will this rate change affect me?

- Effective Oct. 6, 2020, a typical residential customer, using an average of 845 kilowatt hours (kWh) of electricity per month, will see a total monthly bill increase of approximately \$3.70 or 3.44 percent.
- As part of this rate increase, the Distribution System Improvement Charge (DSIC) was adjusted to 0.00 percent for electric customers. The DSIC provides a more predictable and efficient way to pay for the investments needed to maintain safe and reliable service. It is reviewed and approved by the Commission and adjusted every six months to pay for completed infrastructure projects.
- Delmarva Power is permitted to implement the proposed rates while the Commission is reviewing the proposal. Customers could receive a refund if the final electric delivery rates approved by the Commission are less than the proposed rates implemented in October 2020. We will notify you by mail of any changes.

What can I do to help manage my energy costs?

- Sign up for Budget Billing to avoid seasonal peaks by dividing your payments evenly over the entire year.
- Save money and energy with tools on My Account. Sign up today at delmarva.com/MyAccount.
- Visit delmarva.com/WaysToSave for tips and programs that can help you save energy and money.

Please review the chart on reverse for new rates. Effects of these changes will vary with your usage.
