

# CALL 8-1-1 BEFORE YOU DIG

## It's not just a good idea – it's the law.

You probably live and work around a variety of utility lines and equipment buried just a few feet underground. Before beginning any project involving digging, call **8-1-1** to have underground lines marked for free.

Once marked, you can complete your project with less risk of injury, disruption of service or large fines and repair costs. Every digging or construction project requires a call to **8-1-1** at least two business days before work begins.
