

# PROVIDING SAFE AND RELIABLE ELECTRIC SERVICE FOR OUR DELAWARE CUSTOMERS

Delmarva Power asked the Delaware Public Service Commission (the Commission) for an increase in electric delivery rates to recover the costs of ongoing investments to help maintain safe and reliable service. Customers are benefiting from these enhancements which have resulted in record electric reliability for our customers over the last few years. In Delaware, the number of electric outages has decreased 35 percent over the last five years.

We are pleased to pass along federal tax reduction savings to our customers through this ongoing electric rate case, which will help offset the impact of the rate changes that went into effect on March 17, 2018.

## How does this rate change affect me?

- A portion of this rate increase went into effect on an interim basis on October 16, 2017.
- Effective March 17, 2018, an additional portion of the rate increase went into effect resulting in an overall monthly bill increase of between approximately 0.2 percent and 1.2 percent.
- The rate increase is subject to refund to customers with interest, if the Commission's final approval of the electric delivery rates is less than the rates implemented. The Commission is conducting a careful review of this proposal and we will notify you by mail of any changes.

Please review the chart below and on the back for new rates. Effects of these changes will vary with your usage.

RATE SCHEDULE	PREVIOUS RATES		RATES EFFECTIVE 3/17/18	
	Summer (Jun-Sept)	Winter (Oct-May)	Summer (Jun-Sept)	Winter (Oct-May)
