

# APPROVED SETTLEMENT LOWERS GAS DELIVERY RATES FOR DELAWARE CUSTOMERS

The Delaware Public Service Commission has approved a settlement in Delmarva Power's regulatory rate review that passes along federal tax savings to customers and funds efforts to enhance the local gas delivery system and maintain safe and reliable service. Delmarva Power initially filed its gas delivery rate request in August 2017 and implemented portions of the rate increase in November 2017 and in March 2018.

## How will this rate change affect me?

- Effective December 1, 2018, commercial and industrial customers will see a decrease on their monthly bills. The amount of this decrease will vary with individual usage.
- As part of the decrease, customers will receive two ongoing federal tax savings credits, which reflect tax savings that customers will continue to receive for the next five and six years. These "EDIT" credits will appear in the delivery section of your bill.
- In addition to the rate decrease, customers will receive the following credits and refund over the next several months:
  - A one-time credit reflecting additional tax savings.
  - A one-time credit reflecting savings achieved by Delmarva Power, following the Exelon merger.
  - A one-time refund reflecting the difference between interim rates and the approved final rates.
- Customers will be notified by bill message when the one-time credits are applied.

Please review the chart below for new rates. Effects of these changes will vary with your usage.

Rate Class	Previous Rates	Rates Effective December 1, 2018
<b>General Gas Service (GG)</b>
