

APPROVED SETTLEMENT LOWERS ELECTRIC DELIVERY RATES FOR DELAWARE CUSTOMERS

The Delaware Public Service Commission has approved a settlement in Delmarva Power's electric delivery rate review that passes along federal tax savings to customers and funds efforts to enhance the local energy grid and maintain safe and reliable service. Delmarva Power initially filed its rate review in August 2017 and implemented interim increases in October 2017 and in March 2018.

How will this rate change affect me?

- Effective September 1, 2018, a typical residential customer, using 840 kilowatt hours (kWh) of electricity per month, will see a decrease of approximately \$1.40 or 1.2 percent on their monthly bill.
- As part of the rate decrease, customers will receive two ongoing federal tax savings credits, which reflect tax savings that customers will continue to receive for the next five and six years. These "EDIT" credits will appear in the delivery section of your bill.
- In addition to the rate decrease, customers will receive the following credits over the next several months:
 - A one-time credit reflecting additional tax savings.
 - A one-time credit reflecting savings achieved by Delmarva Power, following the Exelon merger.
 - A one-time credit reflecting the difference between interim rates and the approved final rates.
- Customers will be notified by bill message when the one-time credits are applied.

What can I do to help manage my energy costs?

- Sign up for Budget Billing to avoid seasonal peaks by dividing your payments evenly over the entire year.
- Save money and energy with tools on My Account. Sign up today at delmarva.com.
- Visit delmarva.com/waystosave for tips and programs that can help you save energy and money.

Please review the chart on reverse for new rates. Effects of these changes will vary with your usage.
