

MORE HOT WATER, LOWER ENERGY COSTS

Save \$700 on hybrid water heaters

An Exelon Company

Save with rebates. Save with every drop.

Water heating is the second largest energy expense in the average home—it makes up about 14–18% of your utility costs. When you purchase an **ENERGY STAR® certified hybrid water heater**, you'll save energy and money with every drop of hot water. Plus, we can help with a **\$700 rebate** on select models.

ENERGY STAR certified hybrid water heaters:

- Save more than 50% on water heating energy costs—up to \$3,500 lifetime savings for a family of four.
- Often pay for themselves in energy savings in two years or less

For rebate forms, and to learn more about ENERGY STAR certified hybrid water heaters, visit delmarva.com/HWH.

Offer valid for Delmarva Power residential customers in Maryland only. EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money. To learn more about EmPOWER and how you can participate, go to delmarva.com/SaveEnergy.
