

Important Message for Delmarva Power Gas Customers

Over the next several weeks, we will begin routine maintenance on our equipment that will include the installation of a new battery in the remote reading device connected to our gas meters. This work is required to ensure that our gas meters are working properly and accurately measuring your gas usage. The work should take no more than 15 minutes and will not involve any interruption of your gas service.

We are working with Scope Services to complete this maintenance work. Scope Services' representatives will be driving vehicles displaying both the Delmarva Power and Scope Services logos. They will also be wearing a uniform and will carry a photo identification badge so that they can be easily identified.

If the meter is located inside your premise or is not accessible to Scope Services and you are not available to provide access to the meter, we will leave information so that you can contact us and reschedule a time for us to return.

Thank you for your understanding and assistance. Should you have any questions, please contact us at **855-875-4489**, Monday-Friday, 7 a.m. - 8 p.m. or Saturday, 10 a.m. - 2 p.m.
