

Important Rate Information for Commercial and Industrial Electric Customers

Delmarva Power asked the Delaware Public Service Commission (Commission) for an increase in electric delivery rates to cover the costs of ongoing improvements to help ensure the safety and reliability of the electric distribution system and enhance customer service.

How does this rate change affect me?

- Effective October 16, 2017, a portion of that rate increase will go into effect on an interim basis resulting in an overall monthly bill increase of between approximately 0.41 percent and 0.96 percent.
- The rate increase is subject to refund to customers with interest if the Commission's final approval of the electric delivery rates is less than the rates implemented. The Commission is conducting a careful review of this proposal and we will notify you by mail of any changes.

Please review the chart below and on the back for new rates. Effects of these changes will vary with your usage.
