

# Important Rate Information for Commercial & Industrial Gas Customers

On May 17, 2016, Delmarva Power asked the Delaware Public Service Commission (Commission) for an increase in gas delivery rates to recover the costs of reliability investments to ensure the integrity and safety of the gas system.

The Commission's final approval of these rates was lower than the interim rates implemented in July and December of 2016. For most customers, the difference between the rates implemented and the rates approved will be refunded with interest within the next several months.

Final gas delivery rates will go into effect July 1, 2017. The effects of these changes will vary with individual usage.

See the chart below for new rates.
