

# Important Rate Information for Commercial & Industrial Gas Customers

Delmarva Power asked the Delaware Public Service Commission (Commission) for several changes in gas rates resulting in an overall monthly bill increase of between approximately 3.4 percent and 10.3 percent, effective November 1, 2017.

## How will the rate changes affect me?

### Gas Delivery Rates

- We've requested an increase in gas delivery rates to cover the costs of ongoing improvements to help ensure the safety and reliability of the gas system and enhance customer service.
- Effective November 1, 2017, a portion of that rate increase will go into effect on an interim basis and will vary depending on your individual gas use.
- The rate increase is subject to refund to customers with interest if the Commission's final approval of the gas delivery rates is less than the rates implemented. The Commission is conducting a careful review of this proposal and we will notify you by mail of any changes.
- Also in effect with November 1, 2017 usage will be a decrease in the Environmental Surcharge Rider. This surcharge applies to all rate classes except interruptible commercial and industrial customers.

### Gas Supply Rates

- The Gas Cost Rate (GCR) is adjusted annually and will increase effective November 1, 2017. We do not profit from gas supply rates as the costs are a direct pass through to customers.

Please review the chart below and on the back for new rates. Effects of these changes will vary with your usage.
