

Important Rate Information for Residential Electric Customers

Delmarva Power asked the Delaware Public Service Commission (Commission) for an increase in electric delivery rates to cover the costs of ongoing improvements to help ensure the safety and reliability of the electric distribution system and enhance customer service.

How does this rate change affect me?

- Effective October 16, 2017, a portion of that rate increase will go into effect on an interim basis and will vary depending on your individual electric use. A typical residential customer will see their bill increase by \$0.44 or .37 percent.
- The rate increase is subject to refund to customers with interest if the Commission's final approval of the electric delivery rates is less than the rates implemented. The Commission is conducting a careful review of this proposal and we will notify you by mail of any changes.

What can I do to help manage my energy costs?

- Sign up for Budget Billing and avoid seasonal peaks by dividing your payments evenly over the entire year.
- Save money and energy with tools on My Account.
- Visit delmarva.com/everyonesaves for tips and programs for saving money and energy.

Please review the chart on the back for new rates. Effects of these changes will vary with your usage.
