

New Rates Begin June 1 for Maryland Standard Offer Service Customers

Delmarva Power's Standard Offer Service (SOS) supply rates for Maryland residential customers will decrease June 1, 2017. If you have not chosen an alternative electricity supplier, you are on Standard Offer Service and Delmarva Power buys electricity for you. For residential customers, the new supply rates will decrease the total annual bill by about 6.6 percent. For a typical residential customer who uses about 1,000 kilowatt-hours (kWh) of electricity a month, this will result in a monthly decrease of about \$9.83 from about \$148.38 to \$138.55 on the total bill.

The proposed new rates are based on market prices obtained through a competitive bidding process overseen by the Maryland Public Service Commission.
